

2007 Editorial Calendar

Now in its sixth year of publication, the *BioProcessing Journal* complements the WilBio conferences by providing a medium through which selected presentations can be covered in more detail. In addition to serving as a conference proceedings publication, the *Journal* provides valuable information on industry trends, key people, and the technologies and services available from the industry's leading supplier companies.

This peer reviewed publication has one of the best known and respected Editorial Advisory Boards in the industry. Each article is carefully selected for its content and non-commercial nature, and in many cases, the article material has already been critically reviewed at one of our conferences.

BioProcessing Journal is a quarterly publication that is distributed to numerous strategic decision makers throughout the worldwide bioprocessing industry. While our heaviest distribution is within North America, our international audience is expanding, with our fastest growing subscription source now in the Asia Pacific region. The *Journal* reaches the key scientists and engineers who are leading the industry's efforts in R&D, process development, production, QA/QC, and regulatory affairs.

We are always looking for the right articles to include in our upcoming issues. Please send us abstracts for manuscripts you are preparing on your facility, process development efforts, and production techniques. We'd love to review them for upcoming print and electronic issues.

Tentative Production Schedule and Due Dates:

Spring 2007 Issue

Article Manuscripts: March 3
Ad Materials: March 16
Journal Posted to Website: April 10
Journals Mailed: May 5

Summer 2007 Issue

Article Manuscripts: July 5
Ad Materials: July 16
Journal Posted to Website: August 6
Journals Mailed: September 3

Fall 2007 Issue

Article Manuscripts: September 5
Ad Materials: September 17
Journals Posted to Website: October 8
Journals Mailed: November 5

Winter 2007 Issue

Article Manuscript: December 5
Ad Materials: December 17
Journal Posted to Website: January 7
Journals Mailed: February 4, 2008

Please note that information contained in this editorial calendar is subject to change without notice.

Rev. 07/17/07 MB

- Winter 2006**
-  **Baculovirus and Insect Cell Culture** ▶
San Francisco, CA – February 5-7, 2007
 -  **BioProcess Technology – Amsterdam** ▶
Amsterdam, Holland – April 2-4, 2007
 -  **The Waterside Conference** ▶
San Juan, Puerto Rico – April 23-25, 2007

- Spring 2007**
- ESACT 2007** ▶ Dresden, Germany – June 17-20, 2007
 -  **Single-Use BioProcessing Components and Systems** ▶
Concord, CA – July 16-18, 2007
 -  **BioProcess Technology – Singapore** ▶
Republic of Singapore – July 30–August 1, 2007

- Summer 2007**
- PEACE 2007** ▶
Angra dos Reis, Brazil – September 16-20, 2007
 -  **Purification of Biological Products** ▶
Waltham, MA – September 24-26, 2007
 -  **Cell Culture Scale-Up** ▶
Waltham, MA – September 24-26, 2007
 - ASME BioProcess Tech Seminars** ▶
San Diego, CA – October 1-5, 2007
 -  **Cell and Tissue BioProcessing** ▶
Austin, TX – October 29-31, 2007
 -  **Viral Vectors and Vaccines** ▶
Austin, TX – October 29-31, 2007
 -  **Characterization and Comparability for Complex Biological Products** ▶
Austin, TX – November 1-2, 2007

- Fall 2007**
-  **Filtration of Biological Products** ▶
Seattle, WA – November 12-14, 2007
 -  **Cell Characterization and Banking** ▶
Philadelphia, PA – December 3-5, 2007
 -  **Cell Engineering** ▶
Philadelphia, PA – December 3-5, 2007
